DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record both alone and in combination fails to neither disclose nor reasonably suggest the combination of features as claimed and arranged by applicant. Applicant's claims require a hierarchical multi level program guide at which each level displays both linear (broadcast) and non-linear (VOD) programming simultaneously for that particular level/category.

US 2002/0184629 to Sie discloses an EPG which displays programs according to categories from different sources, including VOD and stored VOD programming (figures 15 and 22). Sie however only displays a single level of programming, each level corresponding to a different user. Likewise Sie is directed to VOD programming and not a blend of both linear and non linear programming.

Claims 24-49 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
